

Sweet temptation for discerning brands

TV Rate Card 2022

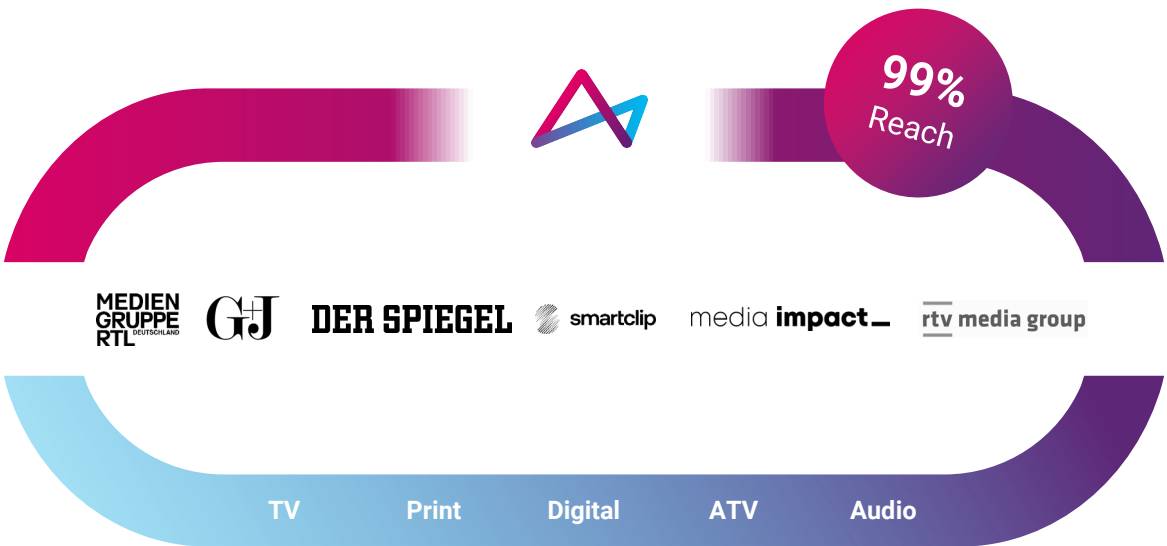

Marketing 2022

Our 'new normal' for brand communication

When it comes to effective brand communication and unique brand presentation, Ad Alliance is the first point of contact for advertisers and media agencies in Germany. And for good reason: Because in the portfolio of this marketer – a pioneer in forging alliances in the German media business – the possibilities are nearly inexhaustible. Since 2016, Ad Alliance has been bundling the strengths of powerful media partners and marketing stations and offers for Mediengruppe RTL Deutschland, Gruner + Jahr, the SPIEGEL Group, rtv media group and video and technology specialist smartclip. Ad Alliance is also a service provider for Media Impact and benefits from numerous other partnerships in the orbit of Mediengruppe RTL Deutschland and Bertelsmann, such as access to the content of the Bertelsmann Content Alliance.

The all-in-one solution provider

What makes Ad Alliance attractive is not solely the sheer size of its portfolio or the renowned media brands it makes available to serve as advertising media – it is what can result from this passion for partnership: advertising that packs a punch!

Building on professional, high-quality content, reinforced by the enthusiasm of campaign experts, enriched with state-of-the-art data competence and topped off with leading ad tech, Ad Alliance finds the right solution for every objective, and for budgets ranging from small to large. Just how many media channels this ultimately involves, and which ones, is as individual as the messaging involved: Bundled expertise makes Ad Alliance a universal solution provider.

Germany's powerhouse for content and data

Content is not everything – but without content, everything amounts to nothing: That could well be the Ad Alliance credo. Powerful and consistently brand-safe content as an indispensable foundation, but at the same time state-of-the-art data infrastructure for refining contacts with insights from our own data lakes, AI-supported tools and machine-learning processes to optimise the user experience, generate impact analysis and ensure dynamic modulation of messaging.

It is not entirely by accident that many of the numerous recent award-winning campaigns have been driven by technology-based concepts. What they demonstrate: Data is already an integral component of the Ad Alliance. And no wonder – Ad Alliance has dedicated itself to doing whatever it takes to create greater impact for brands.

Portfolio

Brands love brands – especially if they are the country’s strongest media brands, brands that represent quality and attitude and enjoy consumer appreciation and trust. This gives campaigns the benefit of brand safety, coupled with an additional boost through the effects of the surrounding media environment.

The platforms shown here are only a representative sample of the entire Ad Alliance portfolio, which comprises more than 500 offerings. Here you will find the right stage for every target group, and for every need for added reach.

Offer system 2022

There are two forms of contracts on which conditions are granted: The basic booking and the Max3 booking.

The basic booking is a contractually fixed booking volume for a maximum of twelve months and ends along with the calendar year. The conditions negotiated cover only the contractual booking volume during the contract period. As no discounts can be granted retroactively, contracts for basic bookings must be concluded by the end of the first month of a campaign.

The Max3 booking is a booking made during the year for flexible volumes over a period of one to three months. The quotation and conditions are independent of a basic booking or additional Max3 bookings.

No discounts can be granted for bookings made outside of a basic or Max3 booking. The Ad Alliance contractual partner can be the advertising client directly, or its agency. Our sales team is happy to respond to any questions you may have.

Advertising forms and rate types

Diverse forms of advertising

A rate type (RT) is assigned to each advertising form. This gives you a quick overview of what a particular coding stands for.

The following pages present an overview of rates. Pricing for AdSpecials can be found available on our homepage, or upon request.

Efficient TV purchasing via COOL

You can use COOL, our online booking tool, to book classic ad blocks and selected AdSpecials. These include e.g. pre-split, single spot, post-split, single split, programme split, news countdown and several exclusive sports blocks.

Real-time inventory access via COOL-API

With COOL-API, agencies can access the bookable Ad Alliance TV inventory directly from their purchasing tools, with no media disruption and in real time. Please refer to our homepage for further information on programmatic booking.

Always well-informed

All of the latest information on programming for the TV stations we serve is available through our website. There, you can view or subscribe to an e-mail newsletter presenting outline plans of programming and ad blocks, among other things:

www.ad-alliance.de/programmwoche

www.ad-alliance.de/tvdownloads

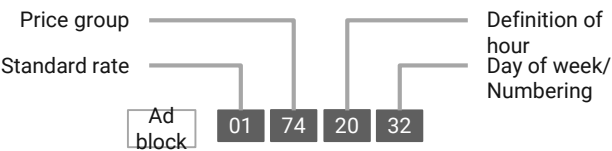

Classic rate types

(RT 01 - 30)

	Rate type (RT)	Description
Classic	01	Standard rate
	07	Night rate
	12	Children's rate
	21	Sports
	22	Motor sports
	23	Motor sports
	24	Sports (e.g. football)
	29	Counter-event rate for children*
	30	Counter-event rate*

Structure of ad block coding

Each advertising block has an eight-character coding for unambiguous identification of the ad space.

* Prices similar to RT 01 or RT 12 (children). Status: 16 July 2021, valid from 1 January 2022. Subject to change, printing errors excepted.

Calculating the spot price

Pricing for classic spots with a length of **more than 29 seconds** are proportional to the price for 30 seconds (see price tables for 30-second pricing).

Price calculation

30-second price

30

x actual spot length

For classic spots with a length of 20-29 seconds, a surcharge of 3 percent is charged. A surcharge of 18 percent is assessed for spots of up to 19 seconds.

20-29 seconds (+3%)

x 1.03

< 20 seconds (+18%)

x 1.18

AdSpecials

Rate types from RT 33

Our AdSpecials are all-rounders and team players: As impactful components of multi-genre campaigns, they spotlight your brand, skilfully and attracting attention.

AdSpecials	Rate type	Sponsoring	Rate type	Exclusive position	Rate type	Special creation
	81-84	Programme sponsoring	62, 69	Credits split	43	Programme split
	85-87	Children's sponsoring	80	News countdown	60	Content split
	*)	Trailer sponsoring	53, 63	Post-split	70, 74, 49	Cut-in (vertical, horizontal)
	*)	Category sponsoring	58, 64	Pre-split	*)	Exclusive creations
	*)	Label sponsoring	61	Programme split	*)	Frame split
	43	Sponsor cut-in (ntv)	57, 59	Single split	*)	Prize draw
			66, 79	Single spot	*)	Logo morphing
			50, 51	Exclusive sports block	65, 73	Move split
			71 (77)	Spot premiere (in the road block)	72, 78	News countdown, individual
					*)	Premium board
					76	Promo story
					47	Skyscraper
					*)	Ad bumper move

*) The rate types shown are our most common AdSpecials. Individual rate types may be used for client-specific implementations. Not all of the rate types shown above are included in the EDI outline and price data, nor can they be booked through at all stations.

Status: 16 July 2021, valid from 1 January 2022.

Subject to change, printing errors excepted.

Sponsoring

Closely link your ad messaging with your target group's programme: With sponsoring, you will benefit from the image transfer to your brand that stems from first-class series, feature-film highlights, sports and show events or high-quality magazines.

Exclusive position

Spotlight your brand: Exclusive positions guarantee added viewer attention to your spot. This gives your message maximum impact.

Special creation

Advertise in a particularly eye-catching, individual way: Special creations are unique spots, developed and produced by us for you – for extraordinarily high attention and ad recall.

For information on our AdSpecials portfolio and sample videos, go to www.ad-alliance.de/tvadspecials

AdSpecials

Spot pricing

Prices for AdSpecials are calculated differently depending on the form of advertising and placement involved and are based on the surcharge principle: The basis is the 30-second price of a classic reference block, plus a defined surcharge, multiplied by the desired spot length.

Pricing an AdSpecial product with 50-percent surcharge and linear pricing (i.e. spot length of 30 seconds and longer)

Spot price =

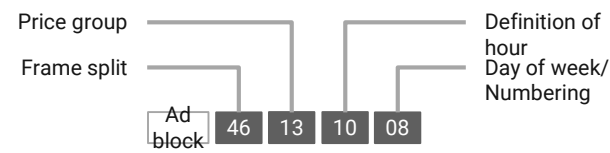

$$\frac{\text{30-second price}}{30} \times 1.5 \times \text{actual spot length}$$

Disproportionate pricing system for AdSpecials

For all AdSpecials in the Exclusive Position column and most AdSpecials in the Special Creation column, a disproportionate pricing system is applied based on the spot length.

Spot-length indices for classic spots apply similarly to the aforementioned AdSpecials (see page 8). For spots of 30 seconds or more, prices are based on linear pricing.

Structure of an AdSpecial coding

Like the classic ad block, each special ad form has an eight-character coding for unambiguous identification of the ad space. The first two digits (RT) indicate the form of advertising.

Mandatory OTC notice

For advertising to promote medicinal products within the meaning of Section 4 (3) of the German Health Services and Products Advertising Act (HWG),

Ad Alliance invoices the portion of the spot featuring the mandatory OTC notice at half the rate, provided that this corresponds to the standard recommended by the German Advertisers Association (OWM) or the German Association of Medicinal Product Manufacturers (BAH) (grey background, white text, exactly 4 seconds long, neutral in the sense of no promotional statements).

The total length of the spot (spot length plus mandatory notice) forms the basis for pricing.
